CORE COMPETENCIES

Hummel Architects brings a legacy of design excellence, stability, and deep institutional knowledge. Our multidisciplinary team provides client-focused services from concept through occupancy, specializing in secure, sustainable, and high-performing facilities for federal, state, and local agencies. Services include:

- **Architecture, Interior Design & Space Planning:** Functional, accessible, and cohesive environments.
- **Feasibility, Predesign & Programming:** Site analysis, stakeholder engagement, and requirements validation.
- **Master Planning & Campus Development:** Long-range strategies and site optimization.
- **Existing Building Assessments:** Conditions, code, energy, and lifecycle analysis.
- **FF&E Planning & Procurement:** Selection and layout aligned with project goals.
- **Building & Code Analysis:** Application of IBC, NFPA, and ADA standards.
- **Sustainability & High-Performance Design:** LEED, Guiding Principles, and net-zero readiness.
- **Bid & Construction Administration:** Contractor coordination, submittal review, and commissioning support.
- **Project Management & Federal Compliance:** Documentation and alignment with FAR, DPAS, and agency standards.

DIFFERENTIATORS

- **Comprehensive Delivery:** From concept through post-occupancy.
- **Federal Expertise:** Codes, security, and compliance.
- **Collaborative Team:** Architecture, interiors, and engineering.
- **Right-Sized Studio:** 30-40 professionals, hands-on, and mobile for projects anywhere.
- **Sustainability Focus:** High-performance, energy-efficient design.
- **Planning Insight:** Long-range campus and facility strategies.
- **Digital Tools:** BIM and data-driven workflows.
- **Nationwide Licensure:** Ability to obtain and maintain licensure in all 50 states
